Java

```java
class Solution {
    public int minOperations(String s) {

    }
}
```

JavaScript

```javascript
/**
 * @param {string} s
 * @return {number}
 */
var minOperations = function(s) {

};
```

C++

```cpp
class Solution {
public:
    int minOperations(string s) {

    }
};
```

C#

```csharp
public class Solution {
    public int MinOperations(string s) {

    }
}
```
